EDUCATION

National Yang Ming Chiao Tung University — GPA:3.84/4.0
Bachelor of Engineering in Electrical and Computer Engineering in progress — Expected Graduation: 2022
National Yang Ming Chiao Tung University
Master of Engineering in Electrical and Computer Engineering — Expected Graduation: 2023

RELEVANT COLLEGE COURSE WORKS

Programming
OOP, Self-Driving Cars, Data Structure, Algorithm, Java Programming, Human Centric Computing Lab, Intelligent Robotics Lab
Mathematics
Calculus, Differential Equation, Linear Algebra, Probability, Discrete Mathematics
Electrical Engineering
Electronics, Electronic Lab, Circuit Theory, Logic design, Principle of Microcomputer, Computer Organization(ongoing), Operating System, Digital Signal Processing, Signal and System

PROJECTS

Localization for Drone and Pyrobot by Apriltag ROS, Python, C++

- Use YOLOv5 pretrained model to get object position with depth camera.
- Use Local Outlier Factor of scikit-learn library to optimize the precision of object position.
- First place in class.

Argo Tracking Competition - Multiple Objects Tracking ROS, Python

- Adding uncertainty of sensors through Kalman Filter to improve tracking result.
- Final result surpassed the official baseline method.

Localization for Autonomous Car ROS, Python

- Use Point Cloud Library to implement ICP localization.

YOLOv5 on Thermal Camera Python

- Test YOLOv5 on FLIR Thermal Dataset.

SKILLS

Languages	C/C++, Python, Java
Tools	ROS, Git, Docker
English Ability	GEPT High-Intermediate level primary test passed

EXTRACURRICULAR ACTIVITIES

President of Rock Music Club NCTU — 6 2020 - 6 2021
